**Subject:** Microsoft Settlement

Hello

There are only one good way for this settlement.

1. Microsoft should be fine much more money than the settlement that they want and all the major of the money should be use to order all the poor schools with ONLY APPLE MACINTOSH computer running Mac OS and continue to supple with Apple computer and nothing else.
2. And continue to write Microsoft Office for MAC for a long period of time as well as continue to update this software a same timeframe as windows counterparts.
